

Title: Information Management System Pilot Projects and Field Testing

Series: 6001

Related Regulations: 6001a

Date Adopted: February 17, 1999

1 As the Area Education Agencies (AEAs), Operations Governance Committee (OGC) and Bureau
2 of Children, Family and Community Services work collaboratively to bring about the growth and
3 maturation of Information Management System (IMS), new and changing needs will continue to
4 be addressed. Before a major feature is added, changed or modified, it is anticipated that a small
5 number of AEAs will participate in a field testing or piloting of the proposed change. Once the
6 pilot project or field test has been completed, the feature will be rolled out to a greater audience in
7 the state.
