

Title: **Considerations for Changes to the Information Management System (IMS)**

Series: 6002

Related Regulations: 6002a

Date Adopted: November 21, 2000

1 The Area Education Agencies (AEAs) and the Iowa Department of Education may submit
2 requests for changes to the Information Management System (IMS) application in order to
3 address new and changing needs for data and information. Such changes should support the
4 continued growth and maturation of IMS and should not impede collaboration between and
5 among the AEAs and the Department. The Operations Governance Committee (OGC) will
6 review all changes to the IMS application and apply a set of guiding principles before approving
7 or disapproving a requested change.
