

Custom Modules

Overview

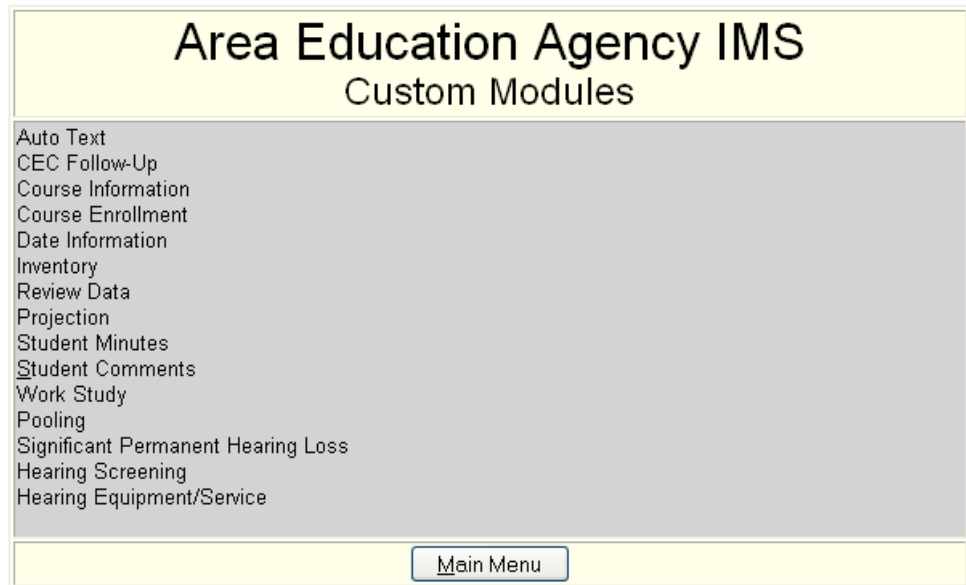

AEAs may request that modules be developed for their use. The list of the custom modules appears within this link.

Uniform Data Entry Procedure

At this time, there are no Uniform Data Entry Procedures related to Custom Modules.

Access to Screen

From the Main Menu, select Custom Modules under the Utilities section.

Add a Module

The programmers at the CPC maintain this list of Custom Modules as well as develop and maintain the Custom Modules.

An AEA which wishes to request a custom module may either submit a request for the custom module or contact the IMS project manager for further information.
