

Web IEP 2010 Released July 1, 2009

Page A	<p>A new Federal reporting expectation has been added, in the RSD section, for students attending a 'Residential Facility' or 'Special School'. The following question must be answered: "The student was placed in this school/facility at the direction of:" One of the following options must be selected; IEP Team, Court Ordered, Parent Choice, DHS Ordered or Student Choice.</p> <p>Race & Ethnicity data collection has been expanded to meet Federal reporting expectations. This data collection area is at the bottom of Page A. Four new data elements collect Hispanic Ethnicity (Yes or No), who determined ethnicity, Race (one or more must be selected) and who determined race. These selections, once completed, carry over from year to year and may be modified if necessary. The link "Show/Hide Race/Ethnicity Data" expands or contracts the data collection area.</p>
Page F	<p>The service code 'PP - Paraprofessional' is a Medicaid billable service to be used in non-academic service descriptions where Medicaid claiming is desired. If used, 'PP' will show up on the 'Medicaid Parent Authorization' form for Medicaid eligible students. The service code 'TA – Academic Teacher Associate' is a non Medicaid billable service code for use in academic service descriptions or situations where Medicaid billing is not desired.</p>

Graph Setup	<p>A new report, 'Monitoring Log', has been added. This report is similar to the 'Worksheet' but includes all entered scores for the graph as well as the printing of comments added to individual scores such as "Spring break" or "Out sick for one week". Phase line descriptions should only be used to describe changes in instruction. The Monitoring Log is included in all print requests through the Print Menu when graph printing is selected. The Monitoring Log will automatically be included in all archives. The log will not print when graph setup is incomplete.</p>
Additional Forms	<p>Functional Behavior Assessments and Behavior Intervention Plans are not tied to the one year cycle of the IEP. They may continue from year to year, with updating as necessary. Individual lists of these two forms are now separate from all the other Additional Forms, but located on the same menu screen. These forms have two categories of status, 'New' and 'Revision' or 'Review without change'. A process named 'Finalize' marks the end of the 'New' status. Finalize runs a data check similar to the Incomplete Data Report for an IEP, but only for the individual FBA or BIP. Before an IEP can be submitted, any FBA or BIP for the student must pass the 'Finalize' test.</p>
Eligibility Determination Worksheet (EDW)	<p>The EDW has an added checkbox labeled "A signed Consent for Evaluation form has not been returned." If this box is checked, the IEP and all attached documents are sent to the Recycle Bin. The student will remain on the Student List until the added student days expire. A new IEP record may not be started for this student until the original record residing in the Recycle Bin is deleted.</p>
